Your name: Mariana Montalvo

Group #: 9

Project Title: Sleep and Health Patterns Based on Occupation

1. What are the names of your other group members? Next to each name, please state their primary responsibility.

Jaskirat Singh - ShinyApp

2. What was your overall experience with the project? Do you feel like it was a valuable learning experience? Were there any problems?

I think it was a valuable experience. We were able to explore data on our own and make use of the knowledge we gained from this class.

3. Did all members of your group contribute evenly? Please explain.

I believe that we both contributed evenly to ensure that our project was well done.

4. If you had to give yourself a grade (A-F) on this project, what would your grade be? Please explain.

I think a B+/A-, I think we did well, there was just not a whole lot to do with the data we used. It would have been more interesting if we used something more story telling.

5. Do you have any other questions or concerns?

No other questions.
